"Savage's the Best on the Coast"

**PLANTS READY NOW**

**Savage's Frost Proof Cabbage Plants** are the best on earth, because they are grown in open fields here in Virginia from best seed from Jerome B. Rice Seed Company, Long Island, and grown on a peninsula of land known as the Eastern Shore of Virginia, lying between the Atlantic Ocean and the Chesapeake Bay. Where climate is right for Frost Proof plants, they live better, grow better and are for every reason superior for transplanting here or anywhere, especially North, to plants grown South in the warm early climates of the Carolinas and Georgia.
